

Phi Aroma

Aromatherapists designed Sabah premium blend roll-on oil based perfume.

The children of Borneo is a series of 100% natural essential oil blends that carry remedial health benefits for our users.

Why is it different from other roll-on EO blend?

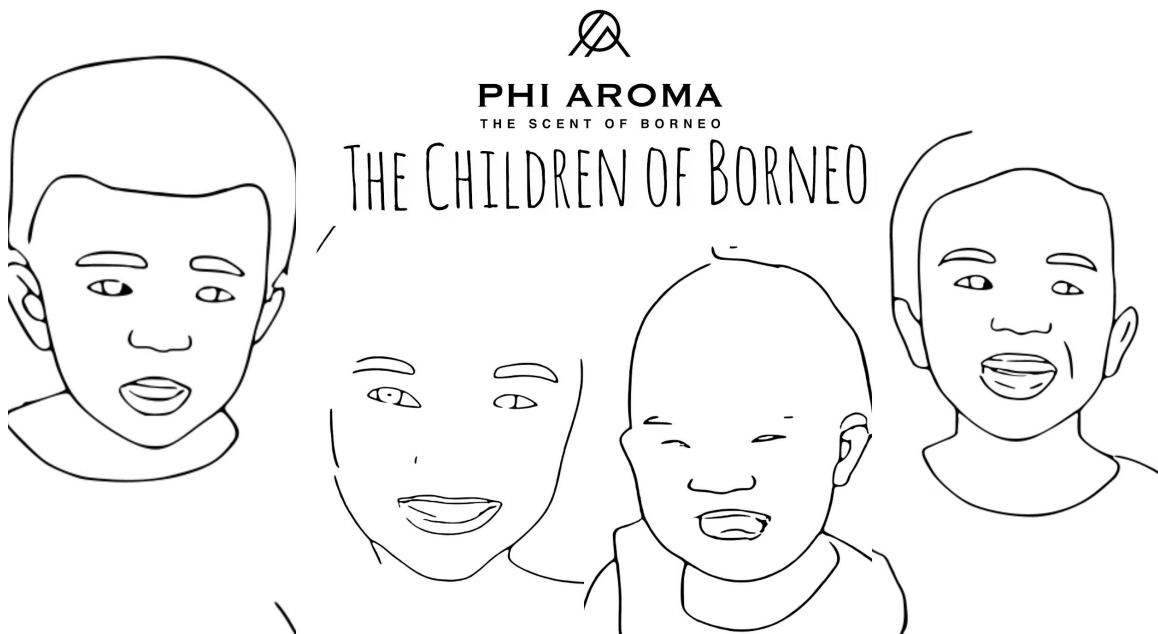

Phi Aroma products are 100% sourced and sealed in North Borneo.

Each roll on is Hand-bottled and sealed in Sabah. We selected the premium essential oil available locally.

Each blend tells a Different story in our own aborigines language.

It carries the spirit of Sabah children as we are gifted to be naturally joyful, spirited, live to protect our land and always full of creativity.
